工学英語研修 4/ Technical English Program4

Kariya Yoshiharu

Course Description

Putting yourself in the environment a language is actually used, and using it practically is effective to learn the language. In this training, students participate to language training program in a foreign country to improve the English skill and the communication ability. Before and after the program, the students must evaluate their competencies by means of CEFR.

Purpose of class

To foster students who can communicate and understand relatively simple information and opinion in English in the engineering context.

Goals and objectives

	Mechanical Engineering	Engineering Science and Mechanics	Materials Science And Engineering	Applied Chemistry	Electrical Engineering	Information and Communications Engineering	Electronic Engineering	Civil Engineering	Computer Science and Engineering
1.Students can communicate simple information and opinion in English in an engineering context.	C-2	A	I.b	C	F	F2	A	I	F-2
2.Students can understand a simple message in English in an engineering context submitted by students/teachers	C-2	A	I.b	C	F	F2	A	I	F-2

Language

English

Course Schedule

	Course Schedule	HW assignments (Including preparation and review of the class.)	Amount of time required
1	Depend on the program	Previous research on dispatch destinations. Preparation for program.	45min
2	Depend on the program	Assignments according to the program	45 min
3	Depend on the program	Assignments according to the program	45 min
4	Depend on the program	Assignments according to the program	45 min
5	Depend on the program	Assignments according to the program	45 min
6	Depend on the program	Assignments according to the program	45 min
7	Depend on the program	Assignments according to the program	45 min
8	Depend on the program	Assignments according to the program	45 min
9	Depend on the program	Assignments according to the program	45 min
10	Depend on the program	Assignments according to the program	45 min
11	Depend on the program	Assignments according to the program	45 min
12	Depend on the program	Assignments according to the program	45 min
13	Depend on the program	Assignments according to the program	45 min
14	Depend on the program	Assignments according to the program	45 min
Total Amount	-	-	630 min

Relationship between Goals and Objectives and course outcomes

	Participate to a program	Total amount
1.	50%	50%
2.	50%	50%
Total amount	100%	-

Evaluation method and criteria

Based on certification of the program, students can earn their credits if both the "Pre-study Abroad/Overseas Training Preliminary Investigation" and the "Post-study Abroad/Overseas Training Follow-up Investigation" are completed by the specified deadline.

Textbooks and reference materials

Depends on the program

Prerequisites

Participants are expected to have completed the e-learning material (Academic Express2, Basic level).

Office hours and how to contact professors for questions

Contact to Student Affairs Section

Relation to the environment

-

Regionally-oriented

-

Development of social and professional independence

-

Active-learning course

Most classes are interactive

Work experience and relevance to the course content if applicable

-

Relevant SDG items (The Sustainable Development Goals)

10. REDUCED INEQUALITIES
